

Initial Build Review Notes

Creative Director: Lily Park

Designer: Thea Davidson

- Love the warm color palette :3
- The website seems a bit contained..!
 - maybe a bit bigger (almost-full-screen) for each section would be better
- For the home page, would be nice to have a 2nd navigation at the bottom with illustrative images for each section
- For the habitat & lifestyle and conservation status page, would be nice to have more real-life photos
- For the selfies page, maybe have 2 images side-by-side for any screen size
- Maybe having a subtle texture behind for some sections or pages would be nice
 - example: maybe a subtle woody drawn texture behind the habitat & lifestyle page
